<b>3:30 - 5:30 PM</b>	Student issues; student project work		Cyber Security Discussion, Info Share			Cyber Security Discussion, Info Share		Student issues; student project work	

<sup>1</sup> Tracks: Students can choose any two of three offered tracks: one on Tuesday and one on Wednesday

<sup>2</sup> Student projects will be assigned to (or selected by) groups of students to work on during the week; summary presentations/results will be made Friday. Student project issues can include: Business impact analyses; notification systems; business continuity vs business resiliency; risk management; exercises; cyber security; selling BC to your organization; individual organization experiences; analysis of a recent event; or other topic as approved by Instructors

<sup>3</sup> Media training includes theory how crisis communications is supposed to work, BC interface with Corporate Comms, how to be a spokesperson, case studies of real spokespersons, lessons learned, plus on-camera time for each participant (with critiques and individual recording)

<sup>4</sup> Notification vendors will be here only to make a presentation at the course, describing their systems and taking questions. Then they will be asked to leave. Students can then discuss among themselves the presentations and their own experiences.
